

## Pirate Ship

The Pirate Ship is one of the most sought-after model, all over the world.

Actually there is not an authentic pirate ship, in fact pirates used to sail on ships they seized from their enemies. Pirates used to adapt these captured vessels to their purposes.

To build this model you do not need any special tool, you just need some glue for wood and a lot of imagination. You can enrich your model with many accessories from the Amati line, just like the pirates did.
