

SAFETY DATA SHEET

SECTION 1**Product & Supplier Identification**

Product Name: Green Stuff

Product Code: PGS4400

Company: Shesto Ltd

Address: Sunley House, Olds Approach, Watford WD18 9TB, United Kingdom

Telephone: +44 (0)20 8451 6188

Use: Modelling, craft and DIY

SECTION 2**Composition/Information on Ingredient**

Description	CAS Number	EINECS Number	%	Note
TALC	14807-96-6	238-877-9	50-80	Eye Irrit. 2: H319; Skin Irrit. 2: H315; Skin Sens. 1: H317; Aquatic Chronic 2: H411
TRIETHYLENETETRAMINE	112-24-3	203-950-6	0-0.5	Aquatic Chronic 2: H411 Skin Irrit. 2: H315; Skin Sens. 1: H317

SECTION 3**Hazards Identification****Classification of the substance or mixture****Classification (EC 1272/2008)****Physical hazards** Not Classified**Health hazards** Not Classified**Environmental hazards** Not Classified**Human health** May be slightly irritating to skin and eyes.**GHS label elements**

EUH208 Contains TRIETHYLENETETRAMINE. May produce an allergic reaction.

SECTION 4**First Aid Measures****Description of necessary first-aid measures****Ingestion:** DO NOT induce vomiting. Get medical attention immediately.**Skin contact:** Wash skin thoroughly with soap and water.**Eye contact:** Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Get medical attention if irritation persists after washing.

Show this Safety Data Sheet to the medical personnel.

Most important symptoms/effects, acute and delayed

Inhalation: No specific symptoms known.

Ingestion May cause discomfort.

Skin contact May cause skin irritation.

Eye contact May irritate eyes.

Indication of immediate medical attention and special treatment needed, if necessary

Notes for the doctor No specific recommendations. If in doubt, get medical attention promptly.

Indication of immediate medical attention and special treatment needed, if necessary

SECTION 5

Fire Fighting Measures

Suitable extinguishing media Extinguish with alcohol-resistant foam, carbon dioxide or dry powder.

Specific hazards arising from the chemical

Specific hazards No unusual fire or explosion hazards noted.

Hazardous combustion products Oxides of carbon. Oxides of nitrogen.

Special protective actions for fire-fighters

Protective actions during firefighting No specific firefighting precautions known.

Special protective equipment for firefighters Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.

SECTION 6

Accidental Release Measures

Personal precautions, protective equipment and emergency procedures Refer to section 8 of SDS for personal protection details.

Environmental precautions Avoid release to the environment

Methods and materials for containment and cleaning up for waste disposal, see Section 13.

SECTION 7

Handling & Storage

Precautions for safe handling Avoid contact with skin. Avoid contact with eyes.

Conditions for safe storage, including any incompatibilities No special storage precautions required.

SECTION 8

Exposure Control/ Personal Protection

Control parameters

Occupational exposure limits

TALC Long-term exposure limit (8-hour TWA): WEL 1 mg/m³ respirable dust

WEL = Workplace Exposure Limit

TRIETHYLENETETRAMINE (CAS: 112-24-3)

DNEL Industry - Dermal; Short term systemic effects: 5380 mg/kg/day
Industry - Inhalation; Long term systemic effects: 1.0 mg/m³

PNEC - Fresh water; 0.135 mg/l
- Marine water; 0.0027 mg/l

Appropriate engineering controls No specific ventilation requirements.

Individual protection measures

Eye/face protection No specific eye protection required during normal use.

Hand protection It is recommended that chemical-resistant, impervious gloves are worn.

Hygiene measures Wash promptly if skin becomes contaminated. Wash at the end of each work shift and before eating, smoking and using the toilet.

Respiratory protection No specific recommendations.

SECTION 9

Physical & Chemical Properties

Physical and chemical properties

PHYSICAL STATE: Solid putty

COLOUR: Blue and yellow in unmixed state, green when mixed

ODOUR: Characteristic

SECTION 10

Stability & Reactivity

Chemical stability Stable under normal conditions.

Conditions to avoid Avoid contact with the following materials: Acids.

Incompatible materials Acids. Amines.

Hazardous decomposition products Oxides of carbon. Oxides of nitrogen.

SECTION 11

Toxicological Information

Symptoms related to the physical, chemical and toxicological characteristics

Ingestion May cause discomfort.

Skin contact May be slightly irritating to skin.

Eye contact May irritate eyes.

Route of exposure Skin and/or eye contact.

SECTION 12

Ecological Information

Toxicity

Hazardous ingredients: FORMALDEHYDE, OLIGOMERIC REACTION PRODUCTS WITH 1-CHLORO-2,3-EPOXYPROANE AND PHENOL

Daphnia magna 96H LC50 >100 mg/l

Persistence and degradability Not biodegradable.

Bioaccumulative potential No data available on bioaccumulation.

Mobility in soil The product is insoluble in water and will spread on the water surface. The product is nonvolatile. Semi-mobile.

SECTION 13**Disposal Considerations****Disposal methods**

Disposal operations Dispose of waste via a licensed waste disposal contractor.

NB The waste code classification is to be carried out according to the European Waste Catalogue (EWC).

SECTION 14**Transport Information****UN Number**

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

SECTION 15**Regulatory Information****Safety, health and environmental regulations specific for the product in question**

Chemical safety assessment: A chemical safety assessment has not been carried out for the substance or the mixture by the supplier.

SECTION 16**Other Information****Other information**

Legal disclaimer: The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. This company shall not be held liable for any damage resulting from handling or from contact with the above product.

Hazard statements in full

H302 Harmful if swallowed.

H312 Harmful in contact with skin.

H314 Causes severe skin burns and eye damage.

H317 May cause an allergic skin reaction.

H412 Harmful to aquatic life with long lasting effects.

EUH208 Contains TRIETHYLENETETRAMINE. May produce an allergic reaction.

Date of Preparation: 23/01/2020
